        "@php artisan package:discover --ansi"
    ],
    "post-root-package-install": [
        "@php -r \"file_exists('.env') || copy('.env.example', '.env');\""
    ],
    "post-create-project-cmd": [
        "@php artisan key:generate --ansi"
    ]
}
}

```

composer update

In cache.php line 91:

Call to undefined function str\_slug()

```
Script @php artisan package:discover --ansi handling the post-autoload-dump event returned with error code 1
```

```
use Illuminate\Support\Str; $str_slug
```

```
https://github.com/laravel/laravel/blob/6.x/config/cache.php cache.php
```

```
config/session.php,
```

## Zizaco/entrust laravel6.0

```
https://github.com/jromero98/entrust/tree/2.0
```

```
composer require trebol/entrust:0.6
```

```
,php
```

```
composer require trebol/entrust:0.6 --ignore-platform-reqs
```

- ### Problem 1

- Root composer.json requires laravel/ui ^4.2 -> satisfiable by laravel/ui[v4.2.0, ..., 4.x-dev].

```
composer require laravel/ui:^3.4
```

<https://github.com/hakobyansen/entrust?tab=readme-ov-file>

For Laravel 7 run: `composer require "codebot/entrust": "^7.0"`

For Laravel 8 run: `composer require "codebot/entrust": "^8.0"`

Auth::routes()

Auth::routes();

--	--	--	--	--	--

```
// Authentication Routes...
Route::get('login', 'Auth\LoginController@showLoginForm')->name('login');
Route::post('login', 'Auth\LoginController@login');
Route::post('logout', 'Auth\LoginController@logout')->name('logout');
```

```
// Registration Routes...
Route::get('register', 'Auth\RegisterController@showRegistrationForm')->name('register');
Route::post('register', 'Auth\RegisterController@register');

// Password Reset Routes...
Route::get('password/reset', 'Auth\ForgotPasswordController@showLinkRequestForm')->name('password.request');
Route::post('password/email', 'Auth\ForgotPasswordController@sendResetLinkEmail')->name('password.email');
Route::get('password/reset/{token}', 'Auth\ResetPasswordController@showResetForm')->name('password.reset');
Route::post('password/reset', 'Auth\ResetPasswordController@reset');

// Email Verification Routes...
Route::get('email/verify', 'Auth\VerificationController@show')->name('verification.notice');
Route::get('email/verify/{id}/{hash}', 'Auth\VerificationController@verify')->name('verification.verify');
Route::get('email/resend', 'Auth\VerificationController@resend')->name('verification.resend');
// Authentication Routes...
```
